541690 –

CAPABILITY NARRATIVE

Endure Tech, LLC is a Minority Owned, strategy, governance, and program management firm supporting federal, state, and local agencies in mission-focused modernization. We provide structured portfolio governance, PMO oversight, and performance reporting to ensure programs are delivered on time and aligned with agency objectives. Our capabilities integrate AI-driven automation, secure cloud and infrastructure architecture, cybersecurity risk management, and data modernization to improve operational visibility, reduce execution risk, and strengthen compliance across complex initiatives.

CORE COMPETENCIES

Strategy, Governance & Program Execution
Enterprise portfolio governance, PMO oversight, KPI reporting, risk and compliance monitoring
AI & Intelligent Automation
Custom AI solutions, workflow automation, decision-support systems, AI-enabled development
Cloud, Infrastructure & Cybersecurity
Secure cloud migration, hybrid architecture, compliance-aligned operations, cyber risk assessments
Data & Systems Modernization
Legacy transformation, enterprise data integration, reporting automation, digital governance

CORPORATE EXPERIENCE

American Electric Power (AEP) : Document Digitization & Process Automation
Designed and implemented a web-based mobile application to digitize Retail Sales Ordering and Contract Management, replacing a legacy paper-based process that previously required several days or weeks for completion.
CLECO Power : Data Transformation & Automation
Developed and deployed a cloud-based data integration and reporting solution that consolidates information from Confirmation, Risk, and End-of-Day Position Valuation systems into a unified database.
EDF Energy : Cloud Migration & System Integration
Led the migration of multiple distributed accounting ledgers into a centralized cloud-based General Ledger system, streamlining financial operations and data management.
